

BOYD ANNOUNCES OVER \$2.3 MILLION IN FEDERAL STIMULUS DOLLARS FOR BAY COUNTY PUBLIC TRANSPORTATION

WASHINGTON, D.C. – U.S. Congressman Allen Boyd (D-North Florida) today announced that Bay County is scheduled to receive \$ 2,377,250 in federal stimulus dollars to improve its public transportation infrastructure. The Bay County Transportation Planning Organization will use this funding to finance the construction of a new bus station and the purchase of additional support equipment.

“With these stimulus dollars, Bay County will be able to upgrade its public transit system and improve service by building a new bus station,” said Congressman Boyd. “Public transportation is an important and valuable service to area residents and our community, and there is no doubt that Bay County will put these funds to good use.”

This funding was made available under the American Recovery and Reinvestment Act, which was signed into law with Congressman Boyd’s support.
